

WILL THE CIRCLE BE UNBROKEN .....

G                      G7                      C                      G  
I was standing by my window                      On a cold and cloudy day  
D                      Em /G                      G                      D7 G  
When I saw the hearse come rolling                      For to carry my mother away.

**CHORUS      G                      G7                      C                      G**  
***Will the circle be unbroken?                      By and by Lord, by and by***  
**D                      EM /G                      G                      D      G**  
***There's a better home awaiting                      In the sky Lord, in the sky.***

G                      G7                      C                      G  
Undertaker, undertaker                      Won't you please drive slow  
D                      Em      G                      G                      D7 G  
For that lady you are carrying'      Lord, I hate to see her go.

**CHORUS**  
Oh, I followed close behind her                      Tried to hold up and be brave  
But I could not hide my sorrow                      When they laid her in the grave

G                      G7                      C                      G  
Well, I went back home, home was lonely      For my mother she was gone  
D                      Em G                      G                      D7 G  
And all my family there was cryin'      For our home felt sad and alone.

**Chorus**  
We sang songs of childhood                      Hymns of faith that made us strong  
Ones that our mother taught us                      Hear the angels sing along

Will the circle be unbroken?

By and by Lord, by and by
