Capo 3rd Fret

[Intro] - Just play around with these chords.

I think Em sounds better when picking because of the open G string.

[1st Verse]

G G/F# Em
When I woke up this morning
G G/F# Em
Wiped the sleep from my eyes
G G/F# Em
Found a new day dawning
G G/F# Em
And suddenly I realize
Asus
You're gone

[Chorus]

Asus D E
Tell me I was dreaming
Asus D E
That you didn't leave me here to cry
Asus D E C#m
You didn't say you don't love me anymore
F#m A (bar crd) B
And it was just my imagination telling lies

D **E** **Asus**
Tell me that you didn't say goodbye

[2nd Verse]

I'm in a state of confusion
I hope things aren't what they seem
If this is really happening
Just let me go back to dream
You're home

[Chorus]

Asus **D** **E**
Tell me I was dreaming
Asus **D** **E**
That you didn't leave me here to cry
Asus **D** **E** **C#m**
You didn't say you don't love me anymore
 F#m **A (bar crd)** **B**
And it was just my imagination telling lies
D **E** **Asus**
Tell me that you didn't say goodbye

[Chorus]

Asus **D** **E**
Tell me I was dreaming
Asus **D** **E**
That you didn't leave me here to cry
Asus **D** **E** **C#m**
You didn't say you don't love me anymore
 F#m **A (bar crd)** **B**
And it was just my imagination telling lies
D **E** **Asus**
Tell me that you didn't say goodbye
